When all eyes are on an ico, it's probably not a bargain. I think I will buy it when it crashes to 1/4 ico price next year.

really? where can i find the part of 0.1btc minimum investment?

I believe it is in the video where they show you how to create the wallet and send in the initial investment.

Here, I think it says it in the 1st video in the below link:

<https://tezos.ch/pages/fundraiser-faq.html>

Is tezos.ch the site? I went to <https://crowdfund.tezos.com> and it also redirect me to tezos.ch

looks like they closed down their slack

Quote

Dear all,

Despite using the most restrictive settings for our Slack channel (a discussion website which was being run for the Tezos community) scammers were able to take advantage of the unrestricted webhook functionality to trigger Slackbot into contacting every slack member with a phishing URL.

The safest option for us, at this point, was to shut down the Slack channel completely. We imported the email addresses of Slack participants into this mailing list so they could be informed. We will resurrect a channel in the future, hosted directly on tezos.com.

In the meantime, as a reminder, always access the tezos.com website by typing in tezos.com directly in your browser. Do not follow links, even if they look like they point to tezos.com or if they look like they came from the Tezos team.

Here are the contribution terms

<https://tezos.ch/pages/contribution-terms.html#contribution-terms>

The part that confuses me is section 3 states that if you contribute, you aren't guaranteed any XTZ. I thought that is exactly what you are supposed to get when investing BTC or ETH to their crowdsale?

They started at least 27 minutes earlier

I think they are offering 20% bonus to early contributor. If you can do it yourself, what is the advantage of bitcoinsuisse.ch? Anyone know

The price of Ether is fixed at the time of investment or the end of ICO?

Yeah, the countdown was supposed to hit 0 at 11:00PM Pacific Standard Time. They jump started this early. What is the difference between tezos contribution and using the suisse option?

I didn't know there would be multiple platforms to contribute. I have friend's money too so I don't want to screw this up..lol

How can I join crowdsale? 🙄

By sending eth or bitcoin to the address in the contract on Github 🙄. It is on the Tezos Github Repo

eth
